Professional Summary

Detail-oriented Software Engineering student with hands-on troubleshooting experience in automation systems, PLCs, robotics, and Ethernet communication. Strong analytical and problem-solving skills with the ability to quickly learn new technologies and software platforms. Seeking an entry-level Software Tester role.

Technical Skills

- Manual Testing
- Troubleshooting
- SQL Basics
- Java Basics
- Networking Fundamentals
- PLC Systems & Ethernet/IP Communication
- Bug Documentation
- Microsoft Office & Google Workspace

Relevant Experience

- Automation Engineer – Linamar, Guelph, ON (Nov 2025 – Present)
 - Troubleshoot complex systems involving both software and hardware
 - Analyze system behavior and identify root causes of issues
 - Work with structured data from PLC systems and production processes
 - Collaborate with engineers to resolve issues and improve system reliability
 - Communicate technical findings clearly to team members
- Automation Technician – Linamar, Guelph, ON (Mar 2021 – Nov 2025)
 - Supported automated systems through troubleshooting and validation
 - Assisted in testing system functionality and verifying fixes
 - Contributed to system improvements by identifying recurring issues

Education

- Software Engineering Diploma (In Progress) – Centennial College
- Electro-Mechanical Engineering Technology (Advanced Diploma – Honours) – Centennial College (2020)
- Bachelor of Engineering – Digital Systems & Robotics – Technology University of Mexico (2017)

Projects

- Web Form Validation System
 - Built a form using HTML, CSS, and JavaScript with structured validation logic
 - Implemented regex validation for inputs (email, postal code)
 - Ensured accurate data handling and user-friendly feedback
- Database Queries Project
 - Designed SQL queries to retrieve and manipulate structured data
 - Worked with filtering, joins, and real-world data scenarios

Additional Strengths

- Strong analytical and structured problem-solving approach
- Clear communicator with technical and non-technical stakeholders
- Fast learner with ability to adapt to new tools and environments
- Proactive and detail-oriented
